

## **ACTIVITY REPORT FOR THE YEAR 2017-18**

Tamil Nadu was a precursor in the environmental awareness movement. An initiative to form eco-clubs to undertake environmental awareness activities fructified in 1998 and this was stepped up in the subsequent years. National Green Corps(NGC), a Government of India project, under Ministry of Environment, Forest and Climate Change, is being implemented in Government and Government aided schools of Tamil Nadu. The programme is being implemented in Tamil Nadu since 2002-03. Department of Environment was the Nodal Agency for implementing the National Green Corps (NGC). The Environment Management Agency of Tamil Nadu (EMAT) is the nodal agency for Tamil Nadu since 2010.

At present this scheme is implemented in 8000 schools at the rate of 250 per district. A total of 3.50 lakhs students are involved in this programme with 40-50 students participating in each NGC school. One Teacher Coordinator, designated per school supervises the NGC activities. Each Educational District has an Environmental Awareness Coordinator, who was nominated on their own interests from academicians/NGOs/ teachers, to supervise the NGC activities in the concerned educational district.

As children are the future, the most important segment of our population and the future custodian of Mother Nature, this programme impart Environment Awareness to the School students through on-campus and community activities like Awareness programme, tree planting, Green days' celebration, Eco competitions and Eco camps. From the year 2009-10 this programme is implemented through the Environment Management Agency of Tamil Nadu (EMAT).

### **OBJECTIVES:**

- To make children understand environment and environmental problem.
- To provide environmental education opportunities for school children.
- To utilize the unique position of school children as conduits for awareness of the society at large.
- To facilitate children's participation in decision making in areas related to environment and development.
- To bring children into direct contact with the environmental problems facing the society they live in and make them think of solutions.

- To involve children in action based programme related to environment in their surroundings.
